BINUS

A Joyful Beginning: Welcoming Our First BINUSIANS!

Dear Fellow BINUSIANS,

With heartfelt joy and gratitude, we celebrate a historic milestone, the official opening of BINUS SCHOOL Surabaya! On 22 July 2025, we welcomed our very first students and families with warmth, celebration, and a meaningful ribbon-cutting ceremony to mark the beginning of this exciting journey.

This momentous achievement is the result of strong commitment, collaboration, and a shared dream to create a vibrant space where learning, excellence, and growth come together. Watching our pioneer BINUSIANS step into the school building for the first time was an unforgettable experience, one filled with excitement, pride, and hope for the future.

To our founding families, we extend our deepest thanks. Your trust and belief in our vision gave life to our school. Your presence made our first day even more special, and we are truly honored to have you as part of our growing community.

If you haven't had a chance to visit our purpose-built school yet, we warmly invite you to schedule a tour. We would love to share how BINUS SCHOOL Surabaya is shaping internationally-minded learners in a dynamic, inclusive, and caring environment.

We look forward to learning and working with all of you to ensure the success of all our students and the rest of the school community.

Warm regards,

Richel Langit Dursin
Vice Principal
BINUS SCHOOL Surabaya

Ms. Richel L. Dursin

Vice Principal of BINUS SCHOOL Surabaya

Dear **BINUSIAN**, In honor of the 80th Independence day of the Republic of Indonesia, we respectfully invite you to attend the Flag Ceremony as a commemoration of this significant national event.

Our Journey Begins Together

A Milestone Unveiled: Welcome to BINUS SCHOOL Surabaya

Held on Tuesday, 22 July 2025, the **Ribbon-cutting Ceremony** marks a significant milestone in our commitment to delivering world-class education nationwide.

We sincerely thank our stakeholders, parents, and students for celebrating this momentous occasion with us. Your support has been vital in bringing this vision to life.

We warmly welcome you to our growing Binusian family as we continue building a community of care, collaboration, and future-ready learning.

Together, let's empower the future with digital excellence.

A Joyful Beginning at BINUS SCHOOL Surabaya

On Tuesday, 22 July 2025, we proudly welcomed the pioneers of BINUS SCHOOL Surabaya on their **very first day of school**, a milestone where learning goes beyond the classroom and the future begins today.

With passion, purpose, and digital excellence at the core, our students have taken their first steps toward becoming the future-ready leaders of tomorrow.

Our Journey Begins Together

Chinese Class Comes to Life in Early Years 1

Our Early Years 1 students have begun an exciting journey into the world of Mandarin!

This week, the children were introduced to basic greetings such as "Nǐ hǎo" (Hello) and "Zàijiàn" (Goodbye) through fun songs, movement games, and storytelling. These interactive activities help children recognize tones and sounds while keeping them engaged and smiling throughout the lesson.

They also practiced identifying simple Chinese characters and had a chance to try saying them out loud together as a class with lots of encouragement and cheerful applause! We're so proud to see our young learners showing curiosity, confidence, and enthusiasm in every Chinese session.

Moving, Playing, Growing. It's PE Time in Early Years 3!

Physical Education (PE) in Early Years 3 is more than just play, it's a key part of your child's growth.

Through fun activities like running, balancing, and jumping, students build essential gross motor skills while also learning focus, teamwork, and confidence.

Each session is filled with movement, joy, and meaningful learning, helping our young learners grow stronger, inside and out.

Our Journey Begins Together

Measuring More Than Numbers: Real-Life Math in Action!

Instead of just working with formulas, they're applying concepts to real-world tasks, from measuring classroom spaces to estimating object sizes and converting units.

This hands-on learning helps students see the purpose behind math, strengthening both their understanding and confidence. Through exploration and teamwork, they're discovering how math connects with the world around them, in ways they can truly see, touch, and measure.

Where Ideas Come to Life: Makerspace in Action!

Our Middle School 7 students are diving into Makerspace, an exciting hub where creativity, collaboration, and STREAMS (Science, Technology, Reading, Engineering, Arts, Mathematics, and Sports) come together.

In this hands-on class, students design, build, and test their ideas while developing critical thinking and problem-solving skills. At BINUS SCHOOL Surabaya, Makerspace is where imagination meets real-world learning.

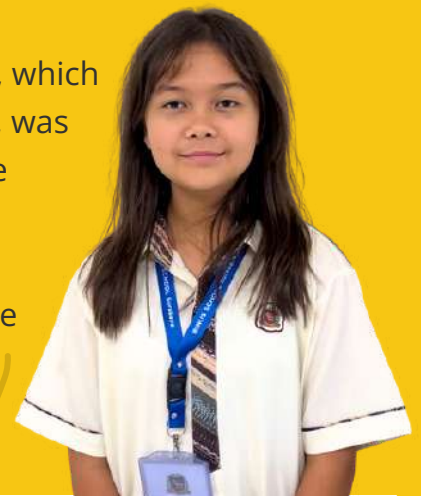

Our Journey Begins Together

Honouring Indonesia Through Student Expression

This year's school student journal features a meaningful artwork by **Renata of Middle School 7**. Renata's design, which beautifully portrays the Indonesian flag and the Garuda, was chosen for its creativity, symbolism, and strong message of national pride. More than just a cover, her artwork represents our commitment to celebrating student expression and encouraging BINUSIANS to share their unique voices and perspectives.

Keep up the good work, Renata!

IB Workshop for BINUS SCHOOL Surabaya Teachers

Road to 45 years in the field of education, BINUS is committed to continuous professional growth.

In line with our commitment, BINUS SCHOOL Surabaya early years and primary teachers officially attended an International Baccalaureate workshop. Our teachers received their IB certificate for completing the workshop on “Building your IB Programme: Primary Years”.

The workshop, held at BINUS SCHOOL Surabaya from July 15 to July 16, was conducted by Ms. Richel Langit-Dursin, our vice principal who has been an IB trainer and school visiting team leader since 2007.

Throughout the two-day workshop, teachers participated in interactive sessions that explored international mindedness, approaches to teaching and learning, assessment tools and strategies, curriculum development, and the promotion of student agency.

The workshop provided a rich platform for deepening teachers’ understanding of IB education, its programme standards and practices. Our teachers will continue to participate in professional development, as our school is committed to creating a culture of learning and delivering an international education that strongly prepares students in a changing world.

A Commitment to Cultivating Professional Excellence

The Principal and Vice Principal of BINUS SCHOOL Surabaya **facilitated an IB workshop** at BINUS SCHOOL Serpong, supporting pedagogical alignment and promoting best practices in IB implementation across campuses.

Teachers and staff have completed the **Child Protection Training for International Schools**, reinforcing our commitment to a safe and supportive learning environment.

Mr. Alex shared valuable insights on digital literacy and how to guide students in using gadgets wisely and effectively in everyday life.

Teachers at BINUS SCHOOL Surabaya have completed professional training conducted by iBox on the effective use of the Apple Ecosystem, supporting the integration of educational technology into teaching and learning practices.

News & Updates

How the Apple Ecosystem Enhances Personalised Education at BINUS SCHOOL Surabaya

At BINUS SCHOOL Surabaya, each student from Early Years 1 to Primary receives an iPad as part of our commitment to integrating digital excellence into everyday learning.

Far beyond a screen, the iPad becomes a powerful learning companion, used to explore concepts, reinforce skills, and spark creativity across subjects. It enables a more personalised learning experience, allowing students to engage with content in ways that align with their individual pace, needs, and interests.

Importantly, iPad usage at school is carefully designed and supervised by teachers, with low screen time and purposeful integration into lessons.

This ensures that students benefit from technology in a balanced, age-appropriate way while developing healthy digital habits from an early age. Through this thoughtful approach, we empower each BINUSIAN to grow with confidence, creativity, and responsibility in a digitally connected world.

Together, we are empowering the future with Digital Excellence.
